PLANT AND SOIL

International Journal of Plant Nutrition, Plant Chemistry, Soil Microbiology and Soil-borne Plant Diseases.

Revue internationale de nutrition des plantes, de chimie végétale, de microbiologie du sol et des maladies des plantes en rapport avec le sol.

Internationale Zeitschrift für Pflanzenernährung, Pflanzenchemie, Bodenmikrobiologie und bodenbedingte Pflanzenkrankheiten.

Issued under the auspices of the

"Koninklijk Genootschap voor Landbouwwetenschap"

(*Royal Netherlands Society of Agricultural Science*)

Executive Editors: D. I. Arnon, Berkeley; J. Baeyens, Louvain; E. G. Mulder, Wageningen; A. C. Schuffelen, Wageningen; F. Steenbjerg, Copenhagen; L. K. Wiersum, Haren.

Secretary: G. H. Arnold, Institute for Soil Fertility, Haren (Gr.), Netherlands.

Assistant Secretaries: J. K. Smit, Epe, and A. Houwers, Wageningen.

Consulting Editors; Wm. A. Albrecht, Columbia, Mo.; C. Arnaudi, Milan; A. van Diest, Wageningen; L. Gisiger, Liebefeld-Berne; A. J. de Groot, Haren; W. R. C. Handley, Oxford; J. L. Harley, Oxford; J. den Holder, Ghent; J. Lavollay, Paris; L. Leyton, Oxford; T. A. Lie, Wageningen; W. J. Lütjeharms, Bloemfontein; E. Melin, Uppsala; M. Ødelien, Ås; E. J. Petersen, Copenhagen; C. S. Piper, Adelaide; D. Snow, Reading; H. G. Thornton, Harpenden, Herts.; S. Tovborg Jensen, Copenhagen; A. I. Virtanen, Helsinki; S. A. Waksman, New Brunswick; F. W. Went, St. Louis.

The Editors are - if necessary - advised by experts from the Staff of the Institute for Soil Fertility, Haren

Druk: Koninklijke Drukkerij Van de Garde N.V., Zaltbommel

Plant and Soil

INTERNATIONAL JOURNAL OF PLANT NUTRITION,
PLANT CHEMISTRY, SOIL MICROBIOLOGY AND
SOIL-BORNE PLANT DISEASES

CONTENTS — TABLE DES MATIÈRES — INHALT

PAGE

Tariq A. Al-Ani and Nazar A. Ouda, Distribution of cations in bean plants grown at varying K and Na levels 641

D. Analogides and V. V. Rendig, Functional relationships between yield response and soil phosphorus supply. I. Choice of the independent variable 545

R. Bagshaw, L. V. Vaidyanathan and P. H. Nye, The supply of nutrient ions by diffusion to plant roots in soil. V. Direct determination of labile phosphate concentration gradients in a sandy soil induced by plant uptake 617

R. Bagshaw, L. V. Vaidyanathan and P. H. Nye, The supply of nutrient ions by diffusion to plant roots in soil. VI. Effects of onion plant roots on pH and phosphate desorption characteristics in a sandy soil 627

Jean-René Bailly et Elsie Tittonel, Etude de quelques acides humiques sur gel de dextrane (II) 57

A. Balasubramanian, R. Siddaramappa and G. Rangaswami, Effect of organic manuring on the activities of the enzymes hydrolysing sucrose and urea and on soil aggregation 319

A. Monem Balba, H. M. Hassan and F. M. Mady, Effect of time of nitrogen application on its absorption by wheat from soil and labelled amonium sulfate 27

A. Monem Balba and M. R. Shabanah, The effect of calcium carbonate and potassium sulphate on the efficiency of ammonium as tested by barley seedlings 33

J. P. Baldwin and P. B. Tinker, *Short communication.* A method for estimating the lengths and spatial patterns of two interpenetrating root systems 209

R. J. Bartlett and D. C. Riego, *Short communication.* Effect of chelation on the toxicity of aluminum 419

H. P. Bauer, P. H. T. Beckett and S. W. Bie, *Short communication.* A rapid gravimetric method for estimating calcium carbonate in soils 689

D. I. Bevege and B. N. Richards, Principles and practice of foliar analysis as a basis for crop-logging in pine plantations. II. Determination of critical phosphorus levels 159

Wolfgang Böhm, *Short communication.* Wurzelforschung mit Polyäthylen-Röhren 683

John E. Bowen, Manganese-silicon interaction and its effect on growth of Sudan grass 577

R. Boxma, Bicarbonate as the most important soil factor in lime-induced chlorosis in the Netherlands 233

G. R. Chaplin, Effects of nitrogen uptake on rice yield in northern Australia 511

P. W. Cullen, A. K. Turner and J. H. Wilson, The effect of irrigation depth on root growth of some pasture species . . 345

Richard E. Dickson, T. C. Broyer and C. M. Johnson, Nutrient uptake by tupelo gum and bald cypress from saturated or unsaturated soil 297

Johanna Döbereiner, J. M. Day and P. J. Dart, *Short communication.* Nitrogenase activity in the rhizosphere of sugar cane and some other tropical grasses 191

Rajpati Dwivedi, *Short communication.* A technique for isolation of Penicillia from soil 171

B. W. Eavis, Soil physical conditions affecting seedling root growth. III. Comparisons between root growth in poorly aerated soil and at different oxygen partial pressures . . . 151

E. Farr and L. V. Vaidyanathan, The supply of nutrient ions by diffusion to plant roots in soil. IV. Direct measurement of changes in labile phosphate content in soil near absorbing roots 609

Edwin L. Fiscus and M. G. Huck, *Short communication.* Diurnal fluctuations in soil water potential 197

ABDUL HAMID, Efficiency of N uptake by wheat, as affected by time and rate of application, using N^{15}-labelled ammonium sulphate and sodium nitrate 389

K. A. HANDRECK, *Short communication.* Sulphur status of plants by sulphate-sulphur: sample handling as a source of misinterpretation 203

E. M. HANSEN, Studies on the chemical composition of isolated soil solution and the cation absorption by plants. I. Relationship between form and amount of added nitrogen and absorption of N, K, Na, Ca and Mg by barley 589

I. HAQUE and D. WALMSLEY, Incubation studies on mineralization of organic sulphur and organic nitrogen 255

AAGE HENRIKSEN, Biologically available versus exchangeable magnesium in soil 529

M. C. HOYLE, *Short communication.* Manganese toxicity in yellow birch (*Betula alleghaniensis* Britton) seedlings . . . 229

F. R. HUMPHREYS and W. L. PRITCHETT, A soil-testing procedure for predicting phosphorus status of *Pinus elliottii* plantations 479

HASSAN SULIMAN IBRAHIM, Mineralization of nitrogen in two soil-organic-matter fractions extracted with formic acid. . 1

HASSAN SULIMAN IBRAHIM, Effect of nitrogen fertilization and cropping on the composition and amount of the soil-organic-matter extracted with formic acid 11

M. ISHAQUE and A. H. CORNFIELD, Nitrogen mineralization and nitrification during incubation of East Pakistan "tea" soils in relation to pH 91

MATT K. JOHN, V. W. CASE and C. VANLAERHOVEN, Liming of alfalfa (*Medicago sativa* L.). I. Effect on plant growth and soil properties 353

MATT K. JOHN, G. W. EATON, V. W. CASE and H. H. CHUAH, Liming of alfalfa (*Medicago sativa* L.). II. Effect on mineral composition 363

L. H. P. JONES and B. H. SMITH, The effect of sesquioxides on the availability of molybdenum to *Trifolium subterraneum* . 649

J. KATZNELSON, Studies in clover soil sickness. III. The distribution of clover soil sickness factors in soil layers and the response of factors to sterilization 97

J. KELLY and MARCIA J. LAMBERT, The relationship between sulphur and nitrogen in the foliage of *Pinus radiata* 395

J. KLECZKOWSKA, *Short communication.* Establishment of phage and bacteria in a sterilized compost in a glasshouse . 425

R. D. LAURA and M. A. IDNANI, Effect on wheat yield and nitrogen uptake from manures made from spent-slurry . . 283

C. Y. LI, K. C. LU, J. M. TRAPPE and W. B. BOLLEN, Nitrate-reducing capacity of roots and nodules of *Alnus rubra* and roots of *Pseudotsuga menziesii* 409

SHIN-CHSIANG LIN, B. R. FUNKE and J. T. SCHULZ, Effects of some organophosphate and carbamate insecticides on nitrification and legume growth 489

A. MAGYAROSY and J. G. HANCOCK, *Short communication.* Microbial population of the laimosphere of squash (*Cucurbita maxima*) 187

M. K. MAHENDRAPPA, *Short communication.* A technique for regulating oxygen tension in a closed biological system . . 173

G. L. MALIWAL and K. V. PALIWAL, *Short communication.* Enzymic activity and synthesis of nucleic acids in okra (*Abelmoschus esculantus*) and sprongegourd (*Luffa cylindrica*) grown in saline substrate 221

A. J. MCLOUGHLIN and E. KÜSTER, The effect of humic substances on the respiration and growth of micro-organisms. I. Effects on the yeast *Candida utilis* 17

R. S. MEHROTRA and G. R. CALUDIUS, Biological control of the root rot and wilt diseases of *Lens culinaris* medic 657

A. W. MOORE and J. S. RUSSELL, *Short communication.* Factors affecting dehydrogenase activity as an index of soil fertility 675

R. J. K. MYERS and J. W. MCGARITY, Denitrification in undisturbed cores from a solodized solonetz B horizon 81

R. J. K. MYERS, *Short communication.* The effect of sulphide on nitrate reduction in soil 431

K. N. NAMDEO, *Short communication.* Persistance of dalapon in grassland soil 445

NIELS ERIK NIELSEN, A transport kinetic concept of ion uptake from soil by plants. II. The concept and some theoretic considerations 561

F. VAN DER PAAUW, Quantification of the effects of weather conditions prior to the growing season on crop yields . . . 375

N. S. PASRICHA and N. S. RANDHAWA, *Short communication.* Interaction effect of sulphur and molybdenum on the uptake and utilization of these elements by raya (*Brassica juncea* L.) 215

B. F. QUIN, R. R. BROOKS and P. F. REAY, *Short communication.* The accumulation of tungsten by *Nothofagus menziesii* 699

V. RANGA RAO, M. JAYAKAR, K. R. SHARMA and K. G. MUKERJI, *Short communication.* Effect of foliar spray of morphactin on fungi in the root zone of *Capsicum annuum* . 179

J. O. RIELY and R. J. SUMMERFIELD, *Short communication.* The use of inert polymers in hydroponic studies. 183

D. A. VAN SCHREVEN, On the resistance of effectiveness of *Rhizobium trifolii* to a low pH 49

D. A. VAN SCHREVEN and W. H. SIEBEN, The effect of storage of soils under water-logged conditions upon subsequent mineralization of nitrogen, nitrification and fixation of ammonia 245

MEIER SCHWARZ, *Short communication.* Influence of root crown temperature on plant development 435

N. T. SINGH and G. S. DHALIWAL, *Short communication.* Effect of soil temperature on seedling emergence in different crops 441

M. K. SINHA, Organic matter transformations in soils. III. Nature of amino acids in soils incubated with C^{14}-tagged oat roots under aerobic and anaerobic conditions 265

M. K. SINHA, Organic matter transformation in soils. IV. Aromatic compounds in fulvic acid of soil incubated with C^{14}-tagged oat roots under aerobic and anaerobic conditions 273

M. K. SINHA, Organo-metallic phosphates. III. Synthesis and their role in plant nutrition 449

M. K. SINHA, Organo-metallic phosphates. IV. The solvent action of fulvic acids on insoluble phosphates 457

R. C. STEFANSON, Soil denitrification in sealed soil-plant systems. I. Effect of plants, soil water content and soil organic matter content 113

R. C. STEFANSON, Soil denitrification in sealed soil-plant systems. II. Effect of soil water content and form of applied nitrogen 129

R. C. STEFANSON, Soil denitrification in sealed soil-plant systems. III. Effect of disturbed and undisturbed soil samples. 141

THEODORE W. SUDIA and DAVID G. GREEN, *Short communication.* The translocation of Zn^{65} and Cs^{134} between seed generations in soybean (*Glycine max* (L.) Merr.) 695

R. J. SUMMERFIELD, *Short communication.* Aids to seed germination studies 691

TATSUZI TAKAHASHI, The relationship between available molybdenum in soils of volcanic ash origin and the molybdenum content in red clover (*Trifolium pratense* L) leaves 665

SHESHRAO K. THAKRE and S. N. SAXENA, *Short communication.* Effect of soil application of chlorinated insecticides on amino acid composition of maize (*Zea mays*) 415

MERVYN W. THENABADU, Evaluation of the nitrogen nutrition status of rice by plant analysis 41

H. A. VAN DE VENTER and J. G. C. SMALL, Effect of iron compounds on nodulation and growth of *Trifolium pratense* L. in water culture 309

A. VÖMEL und F. VAN DER PAAUW, Zur Methodik der Wasserversorgung in Gefässversuchen 497

G. J. WAUGHMAN, The effect of varying oxygen tension, temperature and sample size on acetylene reduction by nodules of Alnus and Hippophaë 521

MARIA M. H. WU, C. S. WU, M. H. CHIANG and S. F. CHOU, Microbial investigations on the suffocation disease of rice in Taiwan 329

F. ZSOLDOS, Ion uptake by cold-injured rice roots 469
